Thanks for trying the Lifewrecker Print N Play by 3 Inch High Games

The Zip file contains five files:

- 1) This introduction / instruction letter
- 2) Rules
- 3) Game Board
- 4) Card Deck
- 5) An editable feedback form to send in to feedback@3-inch.com

Pawns

- You will need to supply your own Meeples or Pawns.
 - Sorry™ pawns work Perfectly.
 - You can also use small household objects like paperclips, coins, or the Koinz from our other game Koinz (www.3-inch.com/Koinz).
 - You will need three of each object per player
 - Eg. 4 players: 3 yellow Koinz, 3 red Koinz, 3 blue Koinz, 3 white Koinz
 - Eg. 4 players: 3 pennies, 3 nickels, 3 dimes, 3 quarters

Printing

- The Card Deck can be printed on standard 8 ½"x11" paper as long as you can print on both sides – flip on the short edge. Cut out using paper cutter or scissors – there are 18 total cards
- The Game Board can be outsourced to Office Depot – my settings are below.
 - You can also try to scale it down and print it on a home printer, but it will be kinda small
 - You don't have to print in color
- The Rules have a funky width but can print on standard paper – try flipping on the short edge (or use two sheets).
